MYCOTOXIN MANAGEMENT

Mycotoxin Regulations Europe 2016

Aflatoxins in Feed

Commodity	Maximum Level B1
All feed materials	20 ppb
Complementary and complete feed with the exception of:	10 ppb
• Compound feed for dairy cattle and calves, dairy sheep and lambs, dairy goats and kids, piglets and young poultry animals	5 ppb
• Compound feed for cattle (except dairy cattle and calves), sheep (except dairy sheep and lambs), goats (except dairy goats and kids), pigs (except piglets) and poultry (except young animals)	20 ppb

Deoxynivalenol in Feed

Commodity	Guidance Level
Cereals and cereal products with the exception of maize by-products	8 ppm
Maize by-products	12 ppm
Complementary and complete feeding stuffs	5 ppm
Complementary and complete feeding stuffs for pigs	0.9 ppm
Complementary and complete feeding stuffs for calves (<4 months), lambs and kids	2 ppm

Ergot alkaloids (Rye Ergot; Claviceps purpurea) in Feed

Commodity	Maximum Level
Feed materials and compound feed containing unground cereals	1,000 ppm

Fumonisins in Feed B1 & B2

Commodity	Guidance Level (B1 & B2)
Maize and maize based products	60 ppm
Complementary and complete feeding stuffs pigs, horses, rabbits and pet animals	5 ppm
Complementary and complete feeding stuffs for fish	10 ppm
Complementary and complete feeding stuffs for poultry, calves (<4 months), lambs and kids	20 ppm
Complementary and complete feeding stuffs for adult ruminants (>4 months) and mink	50 ppm

Ochratoxin A in Feed

Commodity	Guidance Level
Cereal and cereal products	0.25 ppm
Complementary and complete feeding stuffs for pigs	0.05 ppm
Complementary and complete feeding stuffs for poultry	0.1 ppm

T-2 & HT-2 in Feed

Commodity	Guidance Level (T-2 & HT-2)
Cereal products for feed and compound feed (*)	
• Oat milling products (husks)	2000 ppb
• Other cereal products	500 ppb
• Compound feed, with the exception of feed for cats	250 ppb

Zearalenone in Feed

Commodity	Guidance Level
Cereal and cereal products with the exception of maize by-products	2 ppm
Maize by-products	3 ppm
Complementary and complete feeding stuffs for piglets and gilt (young sows)	0.1 ppm
Complementary and complete feeding stuffs for sows and fattening pigs	0.25 ppm
Complementary and complete feeding stuffs for calves, dairy cattle, sheep (including lamb) and goats (including kids)	0.5 ppm
